

Agricultural Rollers / Textured Floats

Speedcrete manufacture and supply textured floats and rollers specially designed for the Agricultural Industry. These products create concrete surfaces which support the stability of both beef and dairy cattle.

Keeping the animals feet drier and reducing the environment which supports bacteria linked to lameness conditions such as digital dermatitis and slurry heel are of major concern in the Agricultural Industry.

Agri-Groove Float

Agri-Groove Float, cuts perfect grooves every time. Produces a uniform, sharp groove in various concrete applications where water damage and traction are critical.

Hex-Roller

The Hex-Roller creates a pattern which provides drainage and considerable grip in comparison to a conventional brushed finished concrete.

Agri-Groove Float

Improving livestock confidence and safety

Argi-Groove Float was primarily designed for finishing concrete pours in dairy parlours and stalls.

This unique method of grooving cuts the grooves 20mm deep – 10mm or 20mm wide slots which allows fluid to drain off the slat leaving less material on the surface between the cow hoof and the concrete to cause slipping.

This floating method gives longevity in environments where mechanical cleaners and scrapers are utilized.

Knucklehead Gearbox, an optional extra.

Part No.	Blade Size	Groove Spacing
AG10-900	900mm	10mm
AG20-900	900mm	20mm
AG10-1200	1200mm	10mm
AG20-1200	1200mm	20mm

Add 'K' to stock code to include Knucklehead Gearbox

Hex-Roller

Create a slip resistant surface for livestock areas.

The Hex-Roller imprints a deep pattern which allows for easy run off of liquids and maximum grip in any direction. Use the Hex-Roller on poured concrete, quickly and easily.

This light-weight roller and Aluminum frame weighs on 14kg making transportation easy.

Product Code: HEXROLLER

Interesting Features

The Hex-Roller has can be filled with water to add the required weight for your imprint. This feature also allows the roller to be kept light-weight in transit.

Flip the frame to allow a free-standing position which allows the Hex-Roller to be cleaned with ease. A liquid release product is typically used for this purpose and can be found on the Speedcrete website. Permacolour™ Liquid Release. Product Code: LR.

The Hex-Roller was designed to ergonomically give cows the correct grip required to prevent slipping and subsequent injuries.
